Skills: PHP – MySQL – Laravel- Object-Oriented Programming (OOP) - JavaScript - Bootstrap– CSS3 – HTML5 - SASS - jQuery - Google Maps –GIT- REST APIs

SadaCode   Jan 2015 to Dec 2015

Senior PHP Developer

• Developing web applications using the CakePHP framework.

Skills: PHP – MySQL – CakePHP – GIT- REST APIs – HTML – CSS –Java script - bootstrap

---

Edigits   Jan 2014 to Dec 2014

Senior PHP Developer

• Developing web applications using Laravel framework and WordPress CMS.

Skills: PHP – MySQL – Laravel- WordPress – GIT- REST APIs – HTML – CSS –Javascript - bootstrap

---

UKprosolutions   Jan 2013 to Dec 2013

PHP Web Developer

• Developing web applications using the YII framework.

Skills: PHP – MySQL – YII--HTML- CSS – Javascript - GIT- REST APIs - bootstrap

---

SKILLS

- **Experience With :**

PHP - MySQL – Laravel - OOP - Design patterns - Solid Principles - MVC
RESTful & SOAP Apis - GIT - Graph QL - Docker - Redis - Google Maps – React- HTML - HTML5 - CSS - CSS3 – JavaScript - ESC6 - Bootstrap - jQuery - jQuery Ui - AJAX - JSON - YII framework - Cakephp framework - Codeignitor framework

LANGUAGE

Arabic   Naive
English   Very Good

PROJECTS

Tax Online Payment

-The user can pay the taxes due on the unit by searching with the unit account code.
- After completing the payment process, an email is sent to the user with all the details related to the payment and the unit.
- In the system, the registered user can print the payment invoice for a specific unit.

✓**Technologies** : PHP - Laravel - React

Daftar 32 :

-in this system, the tax officer enters decisions and records various properties with all the required data, such as the property ledger details, previous property assessments, property description, property valuation, and property buildings.
- The officer also enters all the units within the property.
-The officer enters the unit valuations.
- The officer links the unit to the garage.

✓**Technologies** : PHP - Laravel - React

Aghezty

https://aghezty.com
Ecommerce website where user can register and log in by his account
Then make an order by 3 available types (cash / Visa NBE / Visa CIB)
and It contains a wonderful filter through which you can search by price range, brand filter, category filter
and there is a dashboard to completely control all items on the website

✓**Technologies** : PHP - Laravel - bootstrap - SASS - Checkout js integration for CIB and NBE banks

Greetings
